 CLASS WEB IS GOOD.
 HOW ABOUT "ONLINE SERVICES"

100 Venelock
101 web portal
102 Webbie
103 WebZone
104 Whebot College Portal
105 Why can't we have campus-specific names for the portal, even though it
 is a district project? Where the portal is accessed from and/or the
 school of attendance/employment in the person's profile could result
 in a campus-specific title on the portal home page.

106 With "MySpace" & "MyYahoo!" so well known, including "MY" in the name
 makes a lot of sense.
 I think a descriptive name is better than a cute or clever name.
